SAMPLE JOB POSTINGS

Polysomnographic Sleep Technologist

A great opportunity for those looking for a career in the growing healthcare field of sleep medicine. Training provided. Make an impact!

MedSleep's national network of clinics are committed to providing the highest quality sleep services across Canada. Learn more about us at www.medsleep.com.

Position Description:

The Polysomnographic Technologist ensures the proper performance of all procedures relating to the accurate, safe operation of all diagnostic and therapeutic polysomnographic services provided by our clinics.

You will be provided 240 hours of hands-on training plus theoretical training.

This role involves direct patient contact including describing the procedures, setting-up the patient for the overnight study, addressing questions, resolving technical or equipment issues and monitoring the sleep study throughout the evening.

Position Qualifications:

Relevant and completed post secondary education -- **BSc (Sciences) BA in Psychology**, Biology, Neuroscience..etc. Allied Health care professional.

Ability to work overnight shifts, 10 hours per shift, up to 3 nights per week and weekends—candidates must be able to work weekends.

Strong communication and troubleshooting skills, and ability to work independently.

A focus on high quality patient care. Enthusiasm for learning.

Job Type: Full-time

PSYCHOEDUCATOR, N.E.E.D.S Inc

RESEARCH ETHICS COORDINATOR

SUMMARY

Reporting to the Manager, Research Operations, the Research Ethics Coordinator is integral to the operations of the Research Ethics Board (REB) and Research Ethics Office (REO). The Research Ethics Coordinator is responsible for the prompt processing of research ethics submissions to the Holland Bloorview REB through all stages of review, approval, and monitoring. Additionally, the Research Ethics Coordinator will be responsible for providing REB education along with the Research Ethics office and REB Chair and Vice-Chair, and will be responsible for maintaining the REB website.

KEY RESPONSIBILITIES

Communication and Education

- Educate, communicate and liaise effectively with the REB members, investigators, research/clinical staff, trainees and administrative staff throughout the hospital.
- Provide accurate and consistent information on ethical principles and REB standard operating procedures, and assist research teams to meet REB submission requirements.

- Maintain processes, and monitor practices to ensure research involving humans, with a particular emphasis on children and other vulnerable populations, complies with all regulations.
- Coordinate and review all REB submissions including initial study approval, amendments, protocol deviations, unanticipated problems, adverse events, renewals, closures, researchers' responses to REB concerns and make recommendations for approval or need for revision.
- Work with the REB Chair, Vice-Chair and Research Ethics Office to ensure compliance with relevant regulations, guidelines and policies throughout ethics review, approval and monitoring process.

MINIMUM KNOWLEDGE, SKILLS & ABILITIES

Bachelor level education in health-related field or equivalent combination of education/experience related to research ethics

- Experience with research ethics in a clinical setting
- Must have a minimum of three (3) years of clinical research experience
- Outstanding communication, interpersonal skills and problem-solving skills
- Demonstrated ability to work collaboratively within a team as well as independently.
- Excellent analytical skills
- Computer proficiency, especially, MS Office applications
